

The American Standard Difference

For 140 years, American Standard has created innovations that have set and reset the standard for healthy living, living beautifully, and living responsibly at home, at work, and around the world. Driven by a passion to improve lives, American standard has become a leader in bathroom and kitchen solutions.

From homeowners like you, to professional plumbers, architects and builders; the American Standard name has become synonymous with exceptional value, quality and reliability. As part of the American Standard family of companies, we at Safety Tubs stand behind our products and our work, which includes complete in-home installation by our certified specialists in Canada: The Walkin Tub Company Inc.

We want to improve your home's safety and accessibility, and we genuinely want you to love your bathroom.

The Dangers in Your Bathroom

- Every 2.3 seconds, a person 65 or older will suffer a fall.
- 1 in 3 adults 65+ will fall this year.
- 70% of all home accidents occur in the bathroom.
- Stepping into a conventional bathtub can be difficult (or impossible) for aging adults or those with limited mobility.
- Grab bars and non-slip mats can help, but only address some stability issues.

ComfortSeries™ bathtubs by American Standard and Safety Tubs is sold exclusively in Canada by The Walkin Tub Company. The Walkin Tub Company is the exclusive authorized Canadian Distributor and Installer of ComfortSeries™ accessible and walk-in bathtubs by American Standard.

The Walkin Tub Company is certified with the National Association of Home Builders Association and with Age Safe Canada: Certified Aging in Place Specialists & Certified Senior Safety Specialists

The Feeling of Independence is Yours

Introducing Accessible, and Innovative Walk-in Bathtubs, from a leader in bathroom safety.

American Standard
Walk-In Tubs

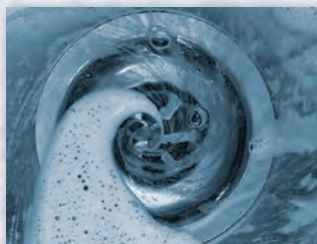

The Ultimate Bathing Experience

Patented Door System

ComfortSeries™ by American Standard offers a Lifetime Guarantee on our leak-free, patented door system seal, so you can enjoy a stress-free spa-like experience at home with each therapeutic bath.

Quick Drain®

With the touch of a button, your ComfortSeries™ bathtub will drain in less than 2 minutes, thanks to our patented QuickDrain® system - because every moment counts.

RevitaJet™ Whole Body Hydrotherapy System

ComfortSeries™ by American Standard features the exclusive RevitaJet™ System, with more hydrotherapy jets than most other bathtubs.

The warm, bubbling bath is perfect for promoting improved circulation and helping relieve aching joints and muscles. You can choose between our targeted RevitaJet™ Whole Body Hydrotherapy settings:

- Deluxe Upper Body Massage
- Ultimate Leg Therapy
- Ultra Foot Massage

Safety, Independence, Comfort and Wellness

Safety Features

Designed with your safety in mind. A built-in chrome safety grab bar, textured floor surface, 17" chair-height ADA built-in seat, accessible door, and bath faucet within arms-reach, all help reduce the chance of falling as you bathe. An Ozone Sanitary System is included to ensure bacteria-free bathing.

Accessible Outward Opening Doors Available

A fully accessible slide-in/slide-out transfer seat makes it easy to access from both a standing position and/or from a mobility walker. The bathtub is also accessible by wheelchair users, and/or by using any type of patient lift system.

Stainless Steel Frame

Our premium quality accessible and walk-in bathtubs have a sturdy stainless-steel frame designed to support years of therapeutic bathing in your home. Our bathtubs are manufactured in Grand Prairie, Texas.

Chromatherapy

Chromatherapy has been shown to possibly impact a person's sense of well-being. This system uses LED lights under the water's surface that illuminates your bathtub in richly coloured tones.

Aromatherapy

Aromatherapy is used to treat a variety of conditions. In general, it seems to relieve pain, improve mood, and promote a sense of relaxation. Our bathtubs include an aromatherapy chamber to allow warmed essential oil infused beads to add to your relaxation therapy.

American Standard Faucet

The ComfortSeries™ accessible and walk-in bathtubs feature a premium fast-fill solid brass chrome faucet with ceramic disc valves and lever handles. It's stylish yet functional handshower can be used while seated, or placed on the included safety slide bar as a shower.
