

COMFORTSERIES™ SSDOD5232 ACCESSIBLE BATHTUB

American Standard
Walk-In Tubs

The American Standard ComfortSeries™ 52"x32" outward-opening, wheelchair accessible bathtub was developed with accessible design, style & therapeutic technology in mind. It fits in the same space as a regular bathtub, and the full-sized, contoured door opens over nearby obstacles (such as a toilet), and allows ease of entry and exit, with a low door threshold, and a right-height seat for easy transfer from a wheelchair, walker, or standing position. The removeable bottom panel allows access for using an assistive device patient lifter, for barrier-free entry.

Once used only in hospitals and health spas, bath therapies like the ComfortSeries™ 52"x32" bathtub includes 44 HydroTherapy jets to assist in the treatment of illness and injury, symptoms of arthritis, back pain, circulatory disorders and other common ailments; and in eliminating toxins that cause joint pain and inflammation. Chromatherapy and Aromatherapy use the effect of colour and scent healing to trigger positive health, emotional, and mental well-being and to boost relaxation and reduce tension. The included inline heater maintains bath water temperature to keep it consistent.

Our patented QuickDrain®, designed by world class engineers, is a powered pump that evacuates water in less than 2 min, allowing for a quick and safe exit. Users now have access to a way of bathing and showering safely, in a hygienic bacteria-free, and independent manner while treating medical ailments and ensuring overall wellness. The ComfortSeries™ offers the best safety and comfort features for home health care, with the most advanced therapeutic systems. It's backed by a 100% LIFETIME WARRANTY on the door, seal, all bathtub components, and on installation by preferred installers.

Whirlpool Massage

A soothing and invigorating water jet massage system that features an in-line heater, auto Ozone tub cleaning system, and Legs-Only massage. Customize back and leg muscle therapies with 15 different water jets focussed on back, shoulders, legs, and arms.

AirSpa Massage

Experience a soft and caressing all-over body massage powered by a variable speed heated blower that releases thousands of air bubbles rising throughout the water from 28 different air jets focussed on hips, back, legs, and feet. The automatic purge cycle helps keep the system running efficient and clean.

ChromaTherapy & AromaTherapy

Light and aroma therapies to encourage wellness through visual and mental stimulation.

QuickDrain® System

An American Standard patented innovation that once activated, rapidly pumps the water out from within the tub in less than 2 min, making it safe to open the door and exit the bathtub.
